

# Talented WordPress Developer

At Dutch Synergy – Marketing Consultancy for the Industry

We are looking for a talented WordPress Developer with strong front-end skills who is familiar with mobile first development and wants to join us empowering industrial businesses to achieve digital excellence.

In our small yet passionate team you will be responsible for coding and building websites and other online projects for our customers; from concept all the way to completion.

You know great architecture and design when you see it and you know when something isn't up to par. Details matter to you, and if something is off you don't quit before you've figured out what happened and how to solve it.

## The job

- Write well-designed, testable, efficient code by using best software development practices
- Create WordPress websites, custom CSS and JavaScript-based scripts
- Focus on mobile first & SEO
- Program and brainstorm on challenging problems and prototype different ideas
- Gather and refine specifications and requirements based on technical needs
- Be responsible for maintaining, expanding, and scaling our customers' sites
- Stay plugged into emerging trends and apply them into operations and activities
- Cooperate with the designer to match visual design intent

## Skills & characteristics you must have

- ✓ 2+ years proven experience with WordPress
- ✓ Excellent verbal and written communication skills in English and you are not afraid to communicate with clients during online meetings
- ✓ A drive to contribute to the online success of our customers and make impact
- ✓ Able to deliver projects on time and at a high-quality level
- ✓ A passion for development, innovation and continuous self-education
- ✓ A consistent style with well-organized, clean code
- ✓ Very good knowledge of HTML5, CSS3, Responsive Web Design, Performance Optimization, JavaScript & Accessibility
- ✓ Proactive attitude
- ✓ Basic aesthetics sense

We help forward-thinking companies succeed digitally

## Skills & characteristics that are a big plus

- ✓ Extensive knowledge of SEO
- ✓ Basic PHP programming and knowledge of Laravel framework
- ✓ Proficiency in Vue.js
- ✓ Experience with industrial (manufacturing) companies
- ✓ Living in Spain

## What we offer

- A diverse job at a growing international online marketing agency
- A long-term commitment
- Several types of cooperation depending on your needs. You can choose from an hourly rate, flat fee, or fulltime 6-month Spanish contract
- A constant flow of exciting projects coming from international manufacturing companies
- Flexible timetables with hours that best fit your schedule (European time zone)
- Work remotely from the comfort of your own home
- Support for learning new skills and acquiring professional certifications

## About Dutch Synergy

Dutch Synergy is an innovative, full-service marketing agency that combines strategy, creativity and technology. We help internationally operating manufacturing, engineering and other industrial companies succeed digitally and make them grow.

We challenge the status quo and define higher standards for industries and companies to make them achieve digital excellence. Our work spans from strategy to creation all the way to launch and beyond.

## Our values

- ❖ Make it happen – We set ambitious goals, we are curious and stretch the current technological possibilities. We make decisions based on data and focus on results.
- ❖ Passionate players – We work with a positive attitude and put passion into everything we do, with perseverance and pride in our work.
- ❖ Good teamwork creates synergy – Together we achieve more and deliver the greatest impact.
